

3,6x7,2 Meter Pergola

Elektrisch, Aluminium, LED

Montageanleitung - DE

E-Deluxe Plus Aluminium Pergola 3,6×7,2 Meter

Diese Instruktionen müssen im gesamten Verlauf des Produkt-Lebenszyklus aufbewahrt werden. Wir raten Ihnen, diese sehr sorgfältig zu lesen, bevor Sie mit dem Aufbau beginnen.

Der Verbraucher ist für jegliche Schäden oder Verletzungen, die durch inkorrekte oder unsachgemäße Installation verursacht wurden, verantwortlich.

Notwendiges Werkzeug und Sicherheitsausrüstung (nicht beiliegend)

2D Fundamentmessung (Dimensionen in mm)

3D Fundamentmessung (Dimensionen in mm)

Vorsicht bei der Verwendung

Dieses Produkt sollte nicht unter extremen Wetterbedingungen verwendet werden: Sturm, starker Wind, Hagel und Schnee. Wir garantieren die Widerstandsfähigkeit der Pergola bei Windgeschwindigkeiten bis zu 88km/h und ein Maximum an Schnee mit Gewicht von 50kg/m².

Bei starkem Wind oder Schneefall empfehlen wir dringend, die Lamellen offen zu lassen. Um gute Funktionsbedingungen Ihrer Lamellen aufrechtzuerhalten, räumen Sie sie bitte von jeglichem Schnee frei.

Unsere Pergola hält starkem Regen stand, wir können jedoch aufgrund einiger extremer Wetterbedingungen keine 100 %ige Wasserdichtigkeit garantieren.

Außergewöhnliche Witterungsverhältnisse können die perfekte Abdichtung des Produkts beeinträchtigen.

Um Schäden und Verletzungen zu vermeiden, empfehlen wir, nicht auf das Dach oder andere Strukturen der Pergola zu klettern.

TIPPS UND SICHERHEITSHINWEISE

Je nach Standort und Fläche kann eine Baugenehmigung für die Konstruktion nötig sein. Stellen Sie sicher, dass Sie sich vor der Montage bei Ihren örtlichen Behörden erkundigt haben, um die erforderlichen Informationen zu erhalten.

Montage des Produkts:

- Mindestens 2-3 Personen erforderlich
- Schutzfolie entfernen (dauert ca. 1 Stunde)
- Kinder nicht in die Nähe des Montagebereichs lassen
- Vorsicht vor Einklemmgefahr
- Schrauben erst festziehen, wenn das gesamte Produkt montiert ist
- Alle Montageschritte müssen sorgfältig befolgt werden
- Die Nivellierung der Struktur auf allen Seiten prüfen
- Pergola erst verankern, wenn das gesamte Produkt montiert ist

Am Produkt dürfen keine Änderungen vorgenommen werden. Vom Benutzer manipulierte Produkte sind nicht von der Garantie abgedeckt und erlöschen.

Der Standort sollte sorgfältig ausgewählt werden. Es wird empfohlen, die Pergola nicht an einem regnerischen Tag, bei Wind, oder unter einem überhängenden Baum zu montieren.

Die Pergola muss auf einem ebenen Fundament montiert werden. Es wird empfohlen, sie auf einer Zementplatte oder an jedem Pfosten auf ca. 25 x 25 cm großen Betonplatten zu installieren. Bitte verankern Sie die Pergola ordnungsgemäß mit Spreizschrauben im Boden.

Wenn Sie Ihre Pergola in der Nähe Ihres Hauses oder eines Gebäudes montieren möchten, prüfen Sie bitte, ob Dachrinnen zur Wasserableitung vorhanden sind.

Sollten diese Anweisungen nicht oder nur teilweise befolgt werden, erlischt die Garantie durch den Verkäufer.

WARTUNG

Regelmäßige Wartung ist notwendig, um die Langlebigkeit und das ästhetische Erscheinungsbild zu gewährleisten.

Wir empfehlen:

- Reinigen Sie Ihre Pergola ein- oder zweimal im Jahr mit frischem Wasser und einem Schwamm oder Tuch.
- Verwenden Sie keine Reinigungsmittel oder Scheuermittel.
- Überprüfen Sie regelmäßig (mindestens einmal im Jahr) den festen Sitz der Schrauben.
- Ölen Sie die Befestigung regelmäßig (mindestens einmal im Jahr).
- Stellen Sie sicher, dass nichts den Wasserfluss in den Dachrinnen behindert (Blätter, Zweige...).
- Entfernen Sie Wasser, das sich um die Beine der Pergola herum stauen könnte (heben Sie die Pfostenschürzen an).

GARANTIE

Diese Garantie deckt nicht ab:

- Normale Abnutzung und Verschleiß der Produkte.
- Verlust oder Bruch von Teilen während des Auspackens oder der Installation.
- Mangelnde Sorgfalt, Vernachlässigung, Vandalismus, Aufprall auf Fremdkörper, Gewalt, Kontakt mit abrasivem Material, Produktästhetik, Demontage, Wiederaufbau oder Standortwechsel.
- Höhere Gewalt: Hagel, starker Wind, Sturm, Schnee, Überschwemmung, Blitzeinschlag usw.
- Manipulationen am Produkt durch den Benutzer.

Die Garantie umfasst nur den Ersatz von Ersatzteilen oder des gelieferten Produkts, eine Rückerstattung erfolgt nicht.

Alle Garantieansprüche müssen bei der Verkaufsstelle (Geschäft oder Website) geltend gemacht werden, bei der das Produkt gekauft wurde.

LISTE DER TEILE (PRO KARTON)

Bevor Sie mit der Montage Ihrer Lamellenpergola fortfahren, müssen Sie überprüfen, ob alle aufgeführten Teile enthalten und unbeschädigt sind. Fehlende Teile müssen innerhalb von 10 Tagen nach der Lieferung gemeldet werden.

Sie können entweder über Ihren örtlichen Outlet-Store gehen oder die Anfrage direkt auf unserer Website stellen.

Werfen Sie die Verpackung nicht weg, ohne sicherzustellen, dass das Produkt ordnungsgemäß funktioniert.

MONTAGEANLEITUNG

Schritt 1: Rahmen & Motor

Schritt 2: Lamellen montieren

Schritt 3: Lamellen installieren & Anschluss

Schritt 1: Rahmen & Motor

Hinweise:

1. Bitte setzen Sie den Transformator in den Seitenträger ein, der sich in der Nähe des Motors befindet.
2. Führen Sie das Eingangskabel des Transformators durch den Pfosten und ziehen Sie dann die Leitung aus der Kerbe an der Basis des Pfostens, um den Strom anzuschließen.
3. Bitte schließen Sie die Verkabelung gemäß der folgenden Abbildung an.

Bitte verbinden Sie die Ausgangsleitung (E-T) mit dem Stromkabel (E-P) des Transformators, indem Sie die wasserdichten Verbindungen (E-W2) verwenden.

- Bitte stecken Sie die Eingangsleitung des Transformators in den Hohlraum des Pfostens.
- Ziehen Sie die Eingangsleitung aus dem Abfluss-Ausgang des Pfostens.
- Installieren Sie die Platte und den Rand des Pfostens, nachdem Sie die Eingangsleitung herausgezogen haben.

Setzen Sie die Schürze (I0) auf den Pfosten (A0). Beachten Sie dabei, dass die Kerbe an der Schürze und der Abfluss-Auslass des Pfostens aufeinander ausgerichtet sein müssen. Siehe Abbildung unten.

2. Installieren Sie die Platte

3. Festziehen

Verwenden Sie den Pistolenbohrer, um die Schrauben an der Platte zu befestigen.

Den LED-Streifen in die Dachrinne einsetzen

Stecken Sie die Ausgangsleitung des LED-Controllers (L-C1) in den Hohlraum des Pfostens

1.

Bitte beachten Sie, dass das Eingangsende des LED-Controllers nach oben und das Ausgangsende nach unten zeigen sollte.

Ziehen Sie die beiden Kabel des Ausgangsendes mit der mitgelieferten Bürste aus der Ablaufkerbe.

Verbinden Sie die Eingangsleitung des LED-Controllers (L-C1) mit dem 2# LED des Controllers (E-C).

Installieren Sie alle LED-Streifen in Reihe und verbinden Sie dann die beiden Enden des LED-Streifens mit den beiden Ausgangsleitungen des LED-Controllers (L-C1).

- Steuerung des An- und Ausschaltens der LED
- Steuerung der Drehung der Lamellen

Wenn Sie die LED-Farbe steuern möchten, laden Sie bitte unten abgebildete die App unten herunter.

Die LED-Farbsteuerung ist nur verfügbar, wenn Sie Zugriff auf WLAN haben

Tuya Smart

Tuya APP Netzwerk-Verbindung

Wenn die LED beim Einschalten nicht verbunden werden kann, setzen Sie bitte den Controller der LED zurück.

Schalten Sie die LED 5 Mal hintereinander ein und aus.
Löschen Sie auch die vorherige Netzwerkverbindung. Wechseln Sie in den Smart Cong-Modus, die Ausgangs-LED blinkt dann 10 Mal.

Nachdem Sie alle Kabel angeschlossen und die LED-Leiste sowie die Lamellenrotation eingestellt haben, legen Sie den Controller (E-C) in den Hohlraum des Balkens (B1), wie in der Abbildung unten gezeigt. Um Schädigungen der Kabel zu vermeiden, stellen Sie bitte sicher, dass sich der Controller (E-C) sowie alle Kabel außerhalb des Bewegungsbereichs vom Motor-Schwingarm befinden.

3,6x7,2 meter Pergola Electric, Aluminum, LED

Assembly Instructions - EN

E-Deluxe Plus Aluminum Pergola 3,6×7,2 meter

These instructions have to be saved during the whole product life cycle. We advise you to read these very carefully before proceeding to the assembly. The user will be reliable for any damages or injuries caused due to incorrect or improper installation.

NECESSARY TOOLS AND SAFETY GEAR(NOT SUPPLIED)

2D FOOTING MEASUREMENT (dimensions in mm)

3D FOOTING MEASUREMENT (dimensions in mm)

PRECAUTION OF USE

This product should not be used in extreme weather: storms, violent winds, hail, and snow. We guarantee the resistance of the pergola for winds up to 88 km/h and a maximum snow weight of 50kg/m².

As in the case of strong winds or snow, we highly recommend leaving the louvers open. To maintain good working conditions of your louvers, please clear any snow on them.

Our pergola can withstand heavy rain, but we cannot guarantee it will be 100% waterproof due to some extreme weather conditions.

Exceptional climatic events may compromise the perfect sealing of the product.

To avoid any damages and injuries, we do not recommend climbing on the roof or the structure of the pergola.

TIPS AND SAFETY INSTRUCTIONS

Depending on the location and surface area, construction may be subject to building permits. Make sure you have checked with your local authorities to obtain the needed information before the assembly.

Product assembly :

- At least 2/3 people required
- Remove protective film (around 1 hour needed)
- Do not keep children near the assembly area
- Beware of the risk of pinching
- Do not tighten the screws before assembling the whole product
- All assembly steps must be carefully followed
- Check the level of the structure on all sides
- Do not anchor the pergola before assembling the whole product

No changes can be made to the product. Products tampered with by the user are not covered by the warranty, thus being declared as void.

The location should be chosen carefully. It is recommended to avoid mounting your pergola on a rainy day, facing the prevailing winds, and under an overhanging tree.

The pergola must be mounted on a flat-level foundation. It is recommended to install it on a concrete slab or 25x25 cm concrete pads at each post. Please, anchor the pergola properly to the ground using expansion screw.

If you would like to mount your pergola near your house or a building, please check the presence of gutters for water drainage.

Should these instructions not be followed or only partially, the warranty will be voided by the seller.

MAINTENANCE

Regular maintenance is necessary to ensure its longevity and aesthetic appearance.

We recommend to :

- Clean your pergola once or twice a year with fresh water using a sponge or cloth.
- Do not use detergent or an abrasive material.
- Check the tightness of the screws regularly (at least once a year).
- Oil fastening regularly (at least once a year).
- Make sure that nothing hinders the water flow in the gutters (leaves, branches...).
- Remove any water that might stagnate around the legs of the pergola (lift the posts skirts).

WARRANTY

This warranty does not cover :

- Normal wear and tear inherent from the products.
- Loss or breakage of any part during unpacking or installation.
- Lack of care, neglect, vandalism, impact with foreign body, force, contact with a abrasives material, product aesthetics, disassembly, rebuilding or relocation.
- Force majeure: hail, high winds, storms, snow, floods, lightning etc...
- Product tampered with by the user.

The warranty only takes in account the replacement of spare parts or the provided product, no refund will be issued.

All warranty claims must be made at the sales outlet (store or website) where the product has been purchased.

PARTS LISTS (PER CARTON)

Before proceeding with the assembly of your louvered pergola, it is necessary to check that all parts listed are supplied and not damaged.

Any missing part must be reported within 10 days of delivery.

You can either go through your local outlet store or make the request directly on our website.

Do not discard the packaging without ensuring that the product is functioning properly.
